THE HIGHEST QUALITY CUSTOMER SERVICE

At Barratt we are genuinely committed to delivering the highest standards of Customer Service. The same exacting standards that have helped us win more quality awards than any other major housebuilder and also ensure we look after our customers as well as we possibly can.

We believe that solid foundations are as important to a customer relationship as they are to a building. During the planning and design process we go to great lengths to make sure the homes and developments we build are perfectly in tune with the needs and aspirations of their prospective owners.

As your home is built, it is checked at every stage to ensure it reaches the exacting standards we demand.

Our Customer Service Charter lays out our commitments to you and details the care, support and assistance we'll provide you with throughout your purchase and long after you've moved in.

Barratt Developments Plc has been awarded an exclusive 5 Star Housebuilder Award* by the Home Builders Federation each year since 2010, which is more than any other major national housebuilder. This coveted accolade is the highest level of certification available from the Home Builders Federation, and the result of both customer recommendations and our superior build quality.

NEW HOMES QUALITY CODE

Housebuilders and developers who build new homes will be expected to register with the New Homes Quality Board (NHQB). As long as a housebuilder or developer has followed the correct registration process, including completing the necessary training, introducing a complaints procedure, and following other processes and procedures that are needed to meet the requirements of this New Homes Quality Code (the code), they will become a registered developer.

Registered developers agree to follow the code and the New Homes Ombudsman Service, including accepting the decisions of the New Homes Ombudsman in relation to dealings with customers. If a registered developer does not meet the required standards, or fails to accept and act in line with the decisions of the New Homes Ombudsman, they may have action taken against them, including being removed from the register of registered developers.

The code sets out the requirements that registered developers must meet. The code may be updated from time to time to reflect changes to industry best practice as well as the decisions of the New Homes Ombudsman Service.

All homes built by registered developers must meet building-safety and other regulations. All registered developers should aim to make sure there are no snags or defects in their properties before the keys are handed over to a customer. If there are any snags or defects, these should be put right within the agreed timescales.

WHAT THE CODE COVERS

For the purposes of this code, 'customer' means a person who is buying or intends to buy a new home which they will live in or give to another person. (If a new home is being bought in joint names, 'the customer' includes all the joint customers.) However, the New Homes Quality Board have also started work to consider other groups of customers and what they should be able to expect from a new home. This includes shared owners and people who are buying a new home to let to other people. Any changes the New Homes Quality Board make to the code to reflect the needs of other groups of customers will be developed through consultation, and they will continually assess and review the effectiveness of the code, and any new laws or regulations that apply. Other areas which are not covered by the code are claims for loss of property value or blight (where a property falls in value or becomes difficult to sell because of major public work in the area), personal injury or claims that are not covered by the scheme rules of the New Homes Ombudsman Service.

WELCOME TO YOUR NEW BARRATT HOME AT NESS CASTLE

The homes here use Calor Liquefied Petroleum Gas (LPG) – a reliable, versatile and efficient energy that works just as easily as using mains gas for your home.

INTRODUCING YOUR NEW BARRATT HOME GAS SUPPLY

Welcome to your new Barratt home at Ness Castle where Calor Gas Ltd are your appointed LPG gas supplier. LPG is the closest alternative to mains gas.

Using LPG rather than oil helps to improve the energy performance of your new home. LPG is the least carbon-intensive of all fossil fuels available to those living without mains gas as it emits 20% less CO₂ than oil.

Who are Calor Gas Ltd?

Calor is the UK's leading supplier of liquefied petroleum gas (LPG) bringing reliable, efficient and modern energy to rural areas of Britain. They operate the largest LPG vehicle delivery fleet and have over 100,000 tonnes of strategic storage in the UK. That gives you peace of mind with the reassurance of a seamless supply.

How do I know how much I am using?

Your home is fitted with a meter enabling you to monitor your usage of fuel that you will be billed for.

Can I work out what I am spending?

Yes, LPG is measured in litres and the current gas price agreed on site is 34ppl + VAT and we can fix that through until 30th September 2022 when it will be reviewed.

Is there a standing charge I have to pay?

There is an additional standing charge of 16.44p per day + VAT (£60 a year + VAT @5%). The tanks are owned and maintained by Calor Gas. This is so that Calor can ensure they are always in good condition and adhere to the highest industry standard.

Where is the LPG stored?

LPG is the closest alternative to mains gas for properties located off the mains gas grid. It is securely stored in central LPG tanks at Ness Castle which provides fuel for all the homes on the development.

Do I need to order LPG myself?

LPG storage tanks on site are fitted on site with a system that automatically reorders more fuel for you. The storage level is maintained at a minimum of 25%.

How will the gas be delivered?

When the tanks need to be refilled and the automatic order has been scheduled, a Calor LPG tanker will come and refill it. The refuelling is done on a whole-site basis so you will not have to be present to accept the delivery as the tanks are in a public area.
