Morris. The quality at the heart of your home

From the location and surrounding landscape to the design, architecture and specification; if there's one thing our long history of building superior homes has taught us, it's that each feature of where you live is as important as the next. A combination of factors need to work in harmony to create the perfect place for you to live and a true sense of home is only achieved when quality exudes from them all.

That's exactly what you can expect in your Morris home. Quality throughout every single stage of its creation. We invest heavily in landscaping to help our developments blend in with the style and history of the local area, and your home

itself is designed to exceed your modern lifestyle demands. That's why we're one of the country's leading independent housebuilders, setting the standards for modern living.

Your green peace of mind

An eco-friendly home isn't just kind on the environment, it's gentle on your pocket as well. Two very important reasons why our commitment to greener homes is at the centre of the whole building process.

From the sustainable materials we use to construct your new Morris home, to the energy efficient 'A' rating appliances we place inside it, the smallest details can make the biggest difference when it comes to protecting the environment.

All our homes are built to strict environmental standards relating to energy efficiency and CO2 emissions

and we also take our commitment to local eco-systems seriously, regularly investing to protect natural habitats and preserve natural surroundings.

The green features included in your home are vital in saving energy, retaining heat, and reducing the cost of your household bills.

Setting the standards for modern living

As a new home buyer, it's reassuring to know that it's not just Morris who believe in the quality of our homes. The industry experts agree too. That's why we're proud owners of numerous awards for the build, design, landscaping, site

management and environmental commitments of our homes. Everything we build is to National House-Building Council (NHBC) standards, giving your home an NHBC 10 year warranty, for long lasting peace of mind.

Innovative living

All our homes have been enhanced with cost saving and energy saving innovations. From super high levels of insulation, to 90.5% efficient gas combination boilers and triple glazed windows, we go above and beyond the required building regulations to ensure every part of your home is designed to reduce energy emissions, as well as your monthly bills. What's more, all taps and showers have been cleverly engineered to reduce water flow-rates without compromising on comfort.
